

Adding Sew-on Stones to a Bangle Bracelet on the Kleshna Bangle Weaver Tool

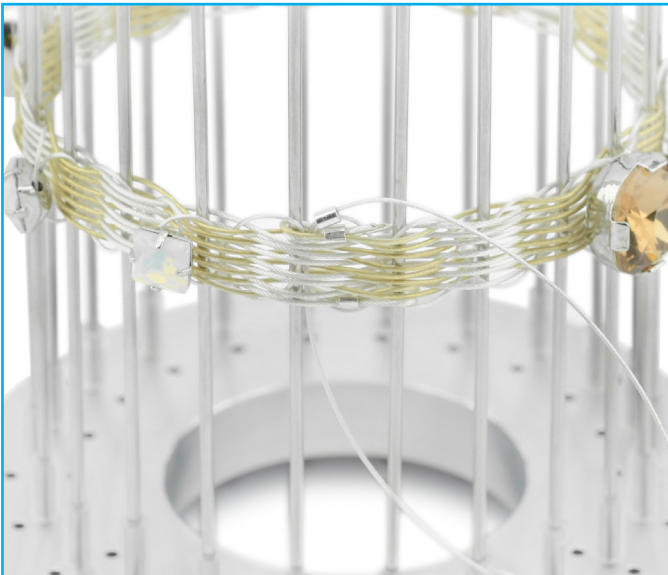

Visit jtv.com/jewelrymaking • JTV • Knoxville, TN 37922

Design by Meredith Roddy, for Beadalon

1. Weave your bracelet with your desired material according to the included instructions. Begin replacing the Warp Pins with Beading Wire, Artistic Wire, or another stringing material of your choice. As you are weaving around, add Swarovski Sew On Stones in a symmetrical or random pattern around the bracelet by threading through one hole on the down pass and the other hole on the up pass.

2. Alternate adding a Swarovski Sew On Stone with replacing the Warp Pins.

3. Continue replacing the Warp Pins and adding stones in this manner until you are back at the beginning of the bracelet. Finish according to the included instructions.
